Erik Hub

Data Analyst - Compliance Specialist
Malmö, Skåne County, Sweden

Summary

Data Professional - Helping small town business to make data-driven decisions

I consider myself a highly determined person, always motivated to achieve my objectives.

My passion for my work and my willingness to put in the effort required means that I am always looking for new ways to improve and grow.

Drive, determination, and perseverance.

During the past years I've had opportunity to work closely with small businesses and family-owned shops and stores around the United States, supporting their digital transformation. Through data analysis and logistics optimization, I've helped these businesses achieve efficiency, reduce costs, improve their bottom line and greater goals, I've also been able to develop effective campaigns that drive business growth and customer engagement. Create the environment for data-driven decision-making and implementing effective solutions is always the objective.

Now Freelancing from Argentina
