Experience

DATA ANALYSIS & BI

2+ years of experience in data analysis specializing in supporting small businesses and family-owned shops. Utilized data analysis techniques to provide actionable insights and drive growth for clients. Worked as a freelance consultant, leveraging expertise in data visualization and statistical analysis to optimize operations and drive revenue growth.

DATA ENGINEERING

Seasoned Data Engineer with expertise in workflow orchestration, data warehousing, and cloud services. Proven ability to supervise teams and meet quotas and deadlines. Expertise in batch and streaming processing, analytics engineering, and data exploration, manipulation, and visualization. Proficient in industry-standard tools and platforms such as Mage, Apache Spark, AWS, and Google Cloud Platform.
